JULY 1-2, 2013

Conference financed by

NeuroRescue

NEUROCONNECTION - Preliminary Program

July 1, 2013

14h00 WELCOME COFFEE

14h30-
15h00 INTRODUCTION

Provence-Alpes-Côte d'Azur Regional Council

Speaker tbc

Eurobiomed – Neurorescue

Dr. Jacque BERTHE, President, EUROBIOMED

15h00-
16h30 **SESSION 1 Success stories in neurosciences : examples of collaborative projects**

Treating autism with a diuretic: experimental and clinical evidence

Prof. Yehezkel BEN-ARI, Founder and Honorary Director, Mediterranean Neurobiology Institute

ForNeuroCell: Bavarian Research Network for adult neural stem cells

Prof. Dr. Jürgen Winkler, Speaker of ForNeuroCell and Head of the Division of Molecular Neurology of the University Clinic Erlangen-Nuremberg

RHEpatch™ prototype for drug combinations in CNS diseases and for polytherapy in elderly populations: ALTHERAS – A Eurostars success story

Serge BISCHOFF, PhD., CEO Rhenovia Pharma

Nanoparticle-based in vivo imaging

Prof. Miklós KELLERMAYER, Vice Rector for Science, Innovation and International Affairs, Director of the Department of Biophysics and Radiation Biology, Professor of Biophysics, Semmelweis University

16h30-
17h30 **Coffee break – BtoB meetings**

17h30-
19h00 **General Public Conference with Pôle Service à la Personne**
Speakers tbc

July 2, 2013

8h30 **WELCOME COFFEE**

9h00-
10h00 **INTRODUCTION**

State of the art : Imaging the Brain in Action

Prof. Jean ROSSIER, MD, PhD, Member of the French Académie des Sciences, Member of the Royal Academy of Medicine of Belgium, Sainte Anne Hospital, Optogenetics and Brain Imaging, INSERM

State of the art “Economy”

Speaker tbc

10h00-
12h30 **SESSION 1 Success stories in neurosciences : examples of collaborative projects**

Neuroprotection and Myelin Repair: Towards a new paradigm in MS clinical trial design and methodology

Rebecca M. PRUSS, PhD., Chief Scientific Officer, Trophos

Novel multi-target approaches to combat neurodegeneration: from basic neuroscience to therapy

Prof. Dr. Beáta Sperlágh, scientific deputy director, Professor of Pharmacology, Head of Department of Pharmacology, Institute of Experimental Medicine, Hungarian Academy of Sciences

Genetic Models of Parkinson's Disease

Prof. Dr. Wolfgang Wurst, Head of the Institute of Developmental Genetics at Helmholtz Zentrum München, Chair of Developmental Genetics at the Technical University Munich, Coordinator of HelMA (Helmholtz Alliance for Mental Health in an Ageing Society)

11h00-
11h30 **Coffee break – BtoB meetings**

Deep Brain Stimulation as a symptomatic treatment of memory decline in Alzheimer's Disease : rationale, feasibility, results and perspectives

Dr. Denys FONTAINE, Neurosurgeon, Nice University Hospital

Smart Pump for Treatment of Parkinson's Disease

Dr. Antoni YUSTE MARCO, General Manager, Fundació Privada Saint Antoni Abat

Serious games & Alzheimer's disease. Assessment measure, physical and cognitive training

Pierre FOULON, Director, Genius

12h30-
14h00 **Lunch**

14h00-
16h00 **SESSION 2: Best practices and tools to stimulate innovation in neurosciences**

EU-supported brain research: achievements and perspectives

Dr. Marc GOLDAMMER, EC, DG Research & Innovation, Neurosciences Unit

The ICM (Brain&Spinal Cord Institute), a translational Research hub for Neurosciences

Dr. Alexis GENIN, Head of Research & Technology Development, Brain & Spine Institute

European Research Infrastructure for Biobanking and Biomolecular Resources
Georges DAGHER, PhD., Research director at INSERM, Leader of Funding & Financing at BBMRI Director of clinical research infrastructures

"Businessplan competitions – a successful strategy to initiate start-ups connected with private funding opportunities" - Best practice example, the businessplan competition in Northern Bavaria, Southern Germany

Dr. Benedikte HATZ, MBA, Managing Director of the Network Northern Bavaria (Netzwerk Nordbayern)

Speed-up your growth by transferring academic research innovations to your company at low cost, without any financial and technical risks

Didier NOEL, Executive Director of Enterprise Creation & Development Unit, SATT Sud Est

Patrick FAURE, Executive Director, Health & Life Technologies Unit, SATT Sud Est

Living labs - prototyping, concept proof and co-creation of innovation with the end user

Brice LACOMETTE, Senior Project Manager, Electronic Innovation, PACA Labs

Dr. Bertrand FRIBOURG, Senior Project Manager, Alcotra, PACA Labs

Venture capital & neurosciences

Dr. Jean-Yves NOTHIAS, PhD., President, Vesalius Biocapital

16h00-
16h30

Coffee break – BtoB meetings

16h30-
17h30

Round table "What future for the innovation in neurosciences?"

Confirmed speakers:

Prof. Jean-Philippe AZULAY, Neurologist, Timone University Hospital

Prof. Mathieu CECCALDI, Head of Neurology Department, Timone University Hospital, President of the Scientific Council for Medical Sciences, France Alzheimer Association, President of the Commission for Innovation, APHM

Dr. Jean-Yves NOTHIAS, PhD., President, Vesalius Biocapital

Marc PATTINSON, Managing Director, inno TSD

17h30

Conclusion and cocktail. End of proceedings

Location

Hôtel de la Région Provence-Alpes-Côte d'Azur

27 Place Jules Guesde, 13002 Marseille, France [see the street plan](#)
